4. If the Faculty of any State Normal School, or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

5. If a person who has completed the examinations required for admission to the Middle or Senior class at any State Normal School desires to enter another Normal School, the principal of the school at which the examination was held shall send the proper certificate to the principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of the junior or middle year studies shall be issued.

6. Candidates for graduation shall be examined by the State Board in all the branches of the Senior year, including English Grammar, Arithmetic, Geography and United States History. They shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry bookkeeping; and all studies completed by them shall be named in their certificates.

7. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. The certificate for the studies of the Junior year shall also include the standing of applicants in the review studies of the Senior year.

9. Graduates of State Normal Schools in the regular course and graduates of accredited colleges may become candidates for the degrees of Bachelor of Pedagogics and Master of Pedagogics. To obtain these degrees, candidates must be examined by the Faculty and State Board upon the studies of the supplementary course. Three years successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School) will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of study indicated above.

10. Attendance at a State Normal School during the entire Senior year will be required of all candidates for graduation; but candidates for the pedagogical degrees may prepare the required work in absentia.

CERTIFICATES AND DIPLOMAS.

A graduate receives a certificate in which are named the branches he has studied, which entitles him to teach in the public schools of Pennsylvania for any two subsequent years without further examinations.

Graduates who have continued their studies for *two years* and have practiced their profession for *two annual terms*, in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendent, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holders the right to teach the branches named therein in the public schools of Pennsylvania, without further examinations.*

Applications for diplomas must be presented to the Board of Examiners at their regular session.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant diplomas or State Certificates to *actual teachers in Common Schools*, without their having attended the Normal School as students. The following are the conditions upon which these diplomas will be granted:

1. Each applicant must be twenty-one years of age, and of good moral character, and must have taught successfully during three successive annual terms in Common Schools in this State, the proof of age to be the declaration on honor of the applicant; and of moral character and a satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. Each applicant to prepare and present to the Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, to be retained at the school where the examinations take place.

3. The examinations and certificate to be without expense to the applicant, and the certificate to be full evidence of qualifications to teach the branches therein named, in any part of the State, without further examination.

GENERAL ANTHONY WAYNE'S TELESCOPE.

Presented by Isaac Wayne to Chester County Cabinet of Natural Science in 1831.
Now the property of the West Chester State Normal School.

Location, Buildings, &c.

The West Chester State Normal School was founded in the year 1871, by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

West Chester is a beautiful town of 10,000 inhabitants, the county seat of Chester county, and is pre-eminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where close connections are made with the trains on the main line, and by an electric road it is also connected with the Philadelphia and Reading R. R. at Lenape.

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of greenstone and marble, 256 by 234 feet, four stories high, with basement. It is one of the finest and handsomest school buildings in the country. The buildings are surrounded by forty-six acres of beautiful grounds.

The chapel and a dining-room adjoin the main building and are completely and handsomely fitted up. Two new additions for sanitary purposes have also been erected, and each story, on both the girls and boys' wing, is fitted up with bathrooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The drainage is first-class. These sani-

tary improvements alone cost \$10,000, and are believed to be among the best and most healthful to be found anywhere. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished; a fine library and reading room provided for the free use of students, and many other improvements made to add to the efficiency of the school and the comfort of the students.

A first-class large passenger elevator has recently been put in and makes all the floors equally desirable. A new electric light plant supplies every part of the building with the best and safest of lights.

THE GYMNASIUM.—A first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet, has recently been completed. It is of stone, two stories high, is fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, ball cage, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercises prescribed for them. This gymnasium marks a great and important advance in Normal School work, and its advantages are enjoyed by all students without extra cost.

RECITATION HALL.—Recently the Board of Trustees erected a new building, 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the Smead-Wills system. The total cost of the building and heating-plant has been over \$60,000.

NEW GROUNDS.—The erection of so many buildings has so taken up the main campus that the Trustees have purchased adjacent grounds at various times, including the fine grounds of the Chester County Agricultural Society, until they now embrace forty-six acres, embracing enclosed grounds suitably fitted up for all outdoor games.

INFIRMARY.—A complete and well appointed school infirmary, at considerable distance from the other school build-

THE NEW MODEL SCHOOL BUILDING.

ings, has just been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost half a million dollars, and is the best and most complete possessed by any Normal School in this country.

STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, have high ceilings, are well ventilated, and are all thoroughly heated by direct steam radiation. The rooms are newly and comfortably furnished, have closets, single-beds, wash stands, bowls and pitchers, and are furnished with woven wire mattresses. The ladies' rooms are all partly carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

Admission, Government, &c.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted, subject to the regulations before mentioned. They may enter at any time during the Session, and will be charged only from date of entrance.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the School.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teacher.

OUTFIT.

Pupils boarding in the institution will be furnished with single beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins; also an umbrella and a pair of rubber over-shoes. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies of the Senior, Middle and Junior classes invariably provide themselves with gymnasium suits of navy blue flannel, the blouse waist of which may be made from Butterick pattern No. 4509, and it is highly desirable that all the young ladies should have this satisfactory and inexpensive dress. Many of the boys provide carpet for their rooms, thus giving them a very neat and homelike appearance.

Keys, wash-bowls, pitchers and looking-glasses are furnished by the school, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

MORAL AND RELIGIOUS CULTURE.

All students are required to attend the opening exercises of the school in the chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians.

LABORATORIES.

The new Chemical Laboratory renders the facilities for Chemistry even more complete than ever; the department is under the charge of a practical chemist, who has devoted years to this important branch, and who is a State Chemist of Pennsylvania. Students receive instructions without extra charge, but are required to pay for chemicals used, breakage, etc. The removal of the laboratory out of the main school building has removed all the danger often apprehended from such departments. Laboratories have also been equipped with apparatus, microscopes, &c., for individual work in Physics, Botany, Physiology and Zoology.

APPARATUS.

The institution is supplied with Philosophical and Chemical Apparatus of the most approved kind, large additions having been made recently.

MODEL SCHOOL.

A new Model School building, 114 by 62 feet, has just been erected at a cost of \$42,000. It is a most complete and suitable building for its purpose. This is one of the public schools of West Chester. The members of the Senior class observe and practice teaching here under the careful supervision of the Superintendent and teachers of West Chester. This experience in public schools of high reputation and efficiency is an advantage to them that cannot well be overestimated.

LIBRARY AND READING ROOM.

A large library room has lately been fitted up in the best manner. It now contains libraries aggregating more than 8,000 volumes. A modern card catalogue adds greatly to their value. The library is open at all hours out of school time, with a competent librarian constantly in charge.

Connected with the library is a reading-room supplied with a hundred magazines and papers, also for the constant and free use of the school.

LITERARY SOCIETIES.

There are connected with the school two flourishing Literary Societies—the Moore Literary Society and the Aryan Society—composed of students and members of the Faculty.

The value of these societies as adjuncts of education is so great that the students cannot afford to neglect the opportunities they furnish for literary and oratorical culture.

MUSEUM.

The Museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington

and David Townsend, now in this Museum, are conceded to be two of the most accurate and extensive private collections ever formed in this country.

TEXT BOOKS.

Text Books are sold to students at wholesale prices ; but all books used in the Elementary Course are furnished on rent to those preferring it.

MUSIC.

This department is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession. The following is the course arranged for the piano :

VOCAL MUSIC.

This department is also in charge of a first-class teacher. The best modern methods of instruction are used both in class work and individual instruction, and the success and popularity of the department have been very marked. Private pupils in vocal music pay the same rates as in instrumental music and have the use of a piano to aid their practice. Class instruction in vocal music is given without extra cost.

A course of reading in musical literature is commended to cultivate the style and enrich the pupil's knowledge of the great masters.

Term :—Winter Session, two lessons per week, including two practice periods daily, \$34.00. For Spring Session, \$16.00. For a part of a term \$1.30 per week.

For lessons on other instruments than the piano, special arrangements must be made.

APPLICATIONS FOR TEACHERS.

Frequent applications are made to the Principal for well-trained teachers, and it will be our aim to supply the demand as far as possible.

CALENDAR.

The school year is divided into two sessions. The Winter Session will begin *Monday, September 2nd*, and continue *twenty-seven weeks*. The Spring Session will begin *Monday, March 24th*, and continue *thirteen weeks*. There will be a vacation of one week at Christmas, and one of the same length between the sessions in March.

TERMS.

Tuition and board, including heat, light and washing, for the Winter Session, \$135; *one-half payable in advance*, the remainder on December 2nd; for a period less than the session, per week, \$5.25. For the Spring Session, \$65, *payable in advance*; for a period less than a session, per week, \$5.25.

For tuition alone, for Winter Session, \$45, *one-half payable in advance*, the remainder on December 4th; for a period less than a session, per week, \$1.70. For Spring Session, *in advance*, \$20; for a period less than a session, per week, \$1.60.

Teachers whose schools do not end until after the beginning of the session, are charged by the week, at *term rates*, if they enter as soon as their schools close, and finish the term.

There are no extra charges except for private lessons in music and the cost of the materials to those using the laboratories.

DEDUCTIONS.

Students absent two consecutive weeks, or longer, on account of personal sickness, are entitled to full reduction for the time lost.

Those leaving for any other cause will be required to pay, for the time spent at the school at the rate for a period less than a session as specified above.

All bills must be settled with the Principal, who acts in behalf of the Trustees. Bills for one term must be settled before a student will be permitted to enter upon the next term, unless by special arrangement.

STATE APPROPRIATIONS TO STUDENTS.

For many years the Legislature of Pennsylvania has made appropriations to students in the State Normal Schools who were preparing to teach in the public schools of the State. As this catalogue goes to press a bill is on its way through the Legislature making appropriations for this purpose for the school years of 1901-2 and 1902-3. It is expected that these appropriations will be available, but positive information on the subject can be had by writing to the Principal of the school. The amounts and conditions of the expected State aid are as follows:

1. Each student *over seventeen years of age*, who shall *sign a paper*, declaring *his intention* to teach in the common schools of the State, shall receive the sum of ONE DOLLAR AND FIFTY CENTS *per week* toward defraying the expenses of tuition and board.

2. Any student, to secure these benefits, must attend the school at least *twelve consecutive weeks*, and must join a class in Methods of Instruction or School Management. These benefits will be deducted from the regular expenses of board and tuition.

VISITORS AND VISITING.

Calls on pupils at other times than during the hours of recreation seriously interfere with the object they have in view, and therefore will not be allowed except in case of necessity. Persons desiring to visit the school are cordially invited to do so at any time.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take their children away from a single school duty, unless it is absolutely necessary.* *It will interfere with important school duties if a student leaves school earlier than Saturday morning or returns later than Sunday evening.* Students are not permitted to visit

home or away from the town without special permission from their parents or guardians.

20. Students are required to take up enough studies to keep them, in the judgment of the Principal, sufficiently employed, but not take up more than they can study with profit.

21. Students must furnish towels, napkins and two pairs of blankets (or an equivalent), and have all articles of clothing *distinctly marked*. Each student is permitted to have twelve pieces washed each week without extra charge.

The right is reserved to remove from the school any pupil whose influence is found to be vitiating.
